PRESENT

WOOTZ^{ED}.15

A National Level Technical Symposium

MARCH 22&23, 2024

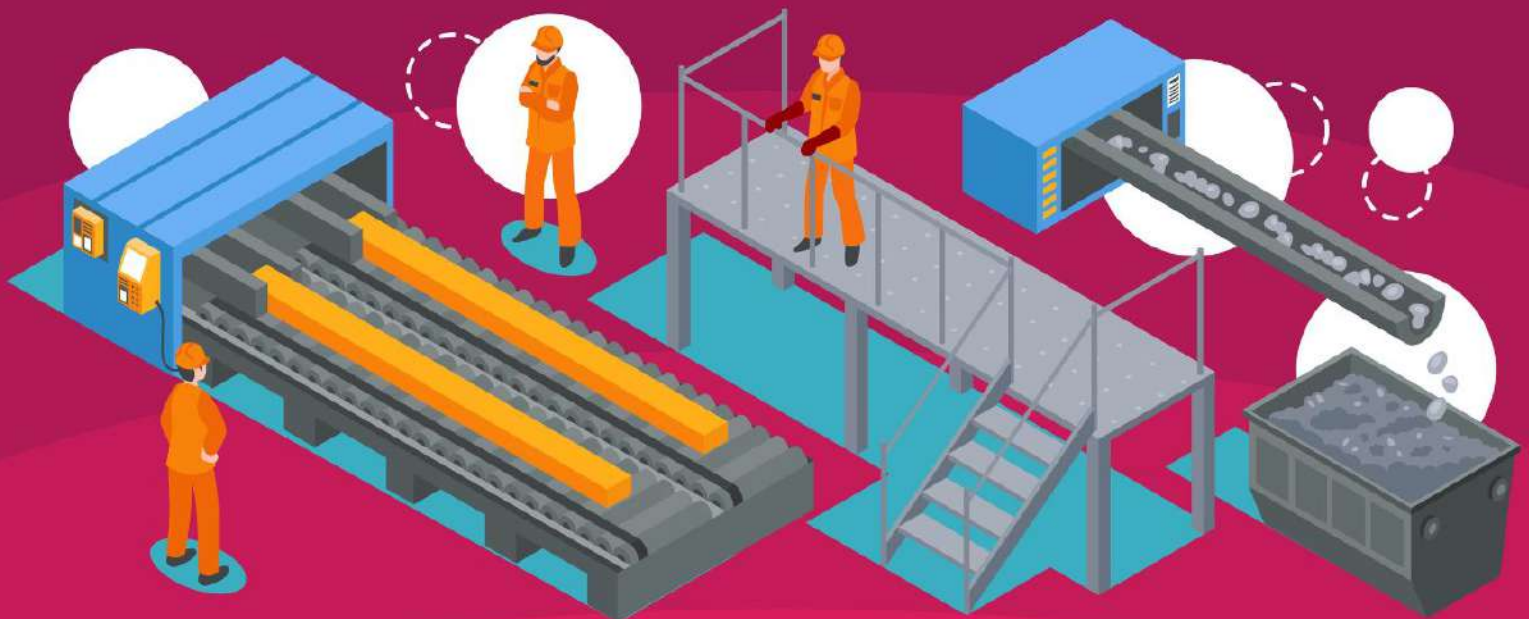

ABOUT THE COLLEGE

PSG College of Technology (PSGCT), established in the year 1951 by PSG & Sons' Charities, is an ISO 9001 - 2015 certified autonomous college affiliated to Anna University. The college offers 20 undergraduate programmes and 31 postgraduate programmes including computer applications, management studies, basic sciences and humanities. The college is accredited with 'A' Grade by NAAC. PSGCT is equipped with many state-of-the-art Centres of Excellence including Centre of excellence for Welding Engineering and Technology. Under the banner of PSG Industrial Institute, there are on-campus manufacturing units of machine tools, pumps, motors and off-campus foundry units. Furthermore, PSG Tech has established very good network with industries, research institutes, alumni and entrepreneurs.

ABOUT THE DEPARTMENT

PSG College is one among the few institutions in the State which offers undergraduate and postgraduate education in Metallurgical Engineering, and ours is in the forefront of these institutions. Department of Metallurgical Engineering was established in 1974. The Department has the state-of-the-art facilities in core laboratories. The Department has active interactions with premier research institutions and renowned industries. A Centre of Excellence in Welding Engineering and Technology (COEWET) funded by Department of Heavy Industry, Govt of India has been established by the Department in the year 2016. The centre houses the latest facilities like Gleeble thermo-mechanical simulator, ThermoCalc software, Sysweld Welding simulation software, welding machines and materials characterisation equipment

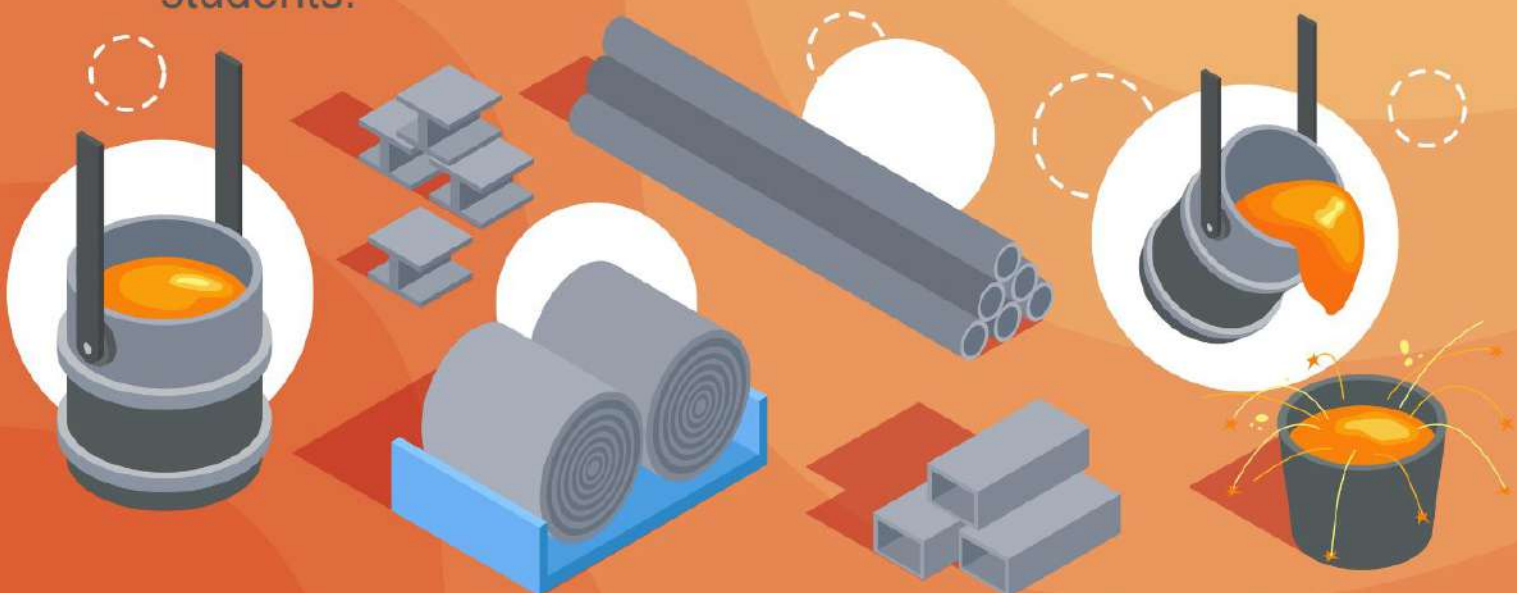

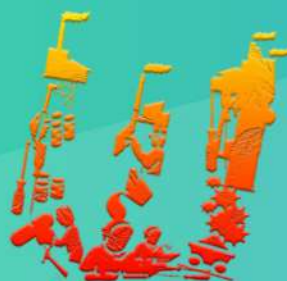

WOOTZ^{ED}.15

A National Level Technical Symposium

WOOTZ, one of the strongest steel is the pride of Indian Metallurgy. Likewise WOOTZ, a National Level Technical Symposium is the pride of Department of Metallurgical Engineering, PSG College of Technology. Since 2009 the intelligence and talent of students all over India is being mined and brought to light. Several workshops on various themes are conducted every year and certificates are also provided to the participants. Live demo sessions are also provided so that students can get practical experience along with theoretical knowledge. Speakers from educational institutions like IIT Madras, IISc Bangalore and research institutions like DMRL, etc., are invited to enlighten the students with their knowledge. Events like paper presentations, poster presentation are conducted so that students can showcase their knowledge in the form of presentation. Events to provide hands on experience are also conducted. Cash prizes are provided to encourage the students.
